

Nature Photography 101

EQUIPMENT CHECKLIST:

You may not own everything on this list—and that's okay—it's simply meant as a guide as you prepare for this workshop. However, one **MUST** is your camera manual.

If you have a lot of equipment already, there's no need to bring the specialty stuff to this workshop. With regard to learning the equipment, we'll focus on getting you very comfortable with your camera, a favorite lens (or two), and with downloading images. ~ *Jeff*
